# AGILIS JETTENDERS FEATURES

**Agilis**  
JET TENDERS

## CUSTOM

Agilis tenders can be customized because deck, hull, inserts colors and technical equipment are variable and may be combined. Your tender will fit your needs and your yacht design.

## LUXURY

Luxury materials and technical solutions adhere to highest yachting standards. Steering wheel, dashboard, electronic reverse system, teak deck, ORCA fabric as well as dozens of other details are designed to accompany the first-class yachts.

## JET

Modern jet engines without external propellers as well as Agilis light hulls grant speed, stability and safety.

## SMALL FORM FACTOR WITHOUT SACRIFICE

When we designed the Agilis 280, our ultimate goal was to design a tender that combined the comfort, power, durability and ease of control of our more spacious options in a compact form factor.

## A VERSATILE OPTION

With 2.80m, it is currently the smallest tender, which fits on yachts starting with a length of 38-foot and is designed to carry 3 passengers at a time.

## LITTLE BUT FIERCE

The Agilis 280 is equipped with a 900 cc Engine, our most compact and economical, yet powerful engine. Designed to deliver reliable and lasting performance, this 60 hp Engine features a closed-loop cooling system that prevents corrosive salt water from entering the interior of the motor.

# AGILIS 280

## MANEUVERABILITY AND SPORTINESS

Do not be fooled by the size of this model, it still packs a punch, enabling you to engage in water skiing at any time. Furthermore, steering the tender, even with one hand on the handlebar, is seamless thanks to the highly functional design of the tender.

## SAFETY

Unlike boats with an outboard engine, the Agilis 280 does not have any reachable moving parts. Hence, leaving the Agilis 280 is a much more safe and relaxed experience.

## LIMITLESS PERSONALIZATION

When it comes to customizing your own jet tender, Agilis got you covered. Not only are we providing you with a vast range of high quality materials to choose from, ranging from faux leathers to textiles, you will be able to choose from over 32 million marvellous color combinations. Consequently, we want to make sure that you can make your Agilis 280 fit your style and environment.

**Agilis**  
JET TENDERS

## SIZE AND PASSENGERS

Coming in at 3.05m, the Agilis 305 is the second smallest tender in the portfolio. The vessel has no issues carrying 4 people at a time.

## ENGINE

The Agilis 305 packs a powerful 90 hp engine, making it a speed demon. The 42-liter fuel tank will last you a while, even when reaching up to 38 knots. Due to the implementation of a special combustion technology, mechanical friction is minimized and significantly better thermodynamic efficiency is achieved, providing remarkable performance. Furthermore, the engine was built with the environment in mind, hence virtually no harmful gases will be emitted by the engine of the Agilis 305.

## AGILITY THROUGH INNOVATION

Through a brake system that has been implemented into the Agilis 305, decelerating even at full speed is no hassle and empowers you to cut the braking distance in half.

# AGILIS 305

MODELS

**Agilis**  
JET TENDERS

## IMPROVED MANEUVERABILITY

Due to enhanced maneuverability, steering the tender even in less spacious environments becomes nearly effortless. Hence, parking the boat or operating it within a harbor is made significantly less stressful than it would otherwise be.

## BOUNDLESS CUSTOMIZATION

Much like all of Agilis' tenders, the Agilis 305 comes with an incredible range of customization options. You are not only able to choose from a comprehensive array of materials such as textiles or faux leather, but you are also free to customize your tender further by choosing from over 32 million stunning color combinations.

## AGILIS 330

FITS 50-FOOT OR LONGER YACHTS,  
DESIGNED TO CARRY UP TO 4 PASSENGERS

# AGILIS 330

## SIZE AND PASSENGERS

The Agilis 330, with its length of 3.30m remains incredibly agile, while being a more spacious option. Even when carrying the maximum amount of 4 passengers, everyone on board will retain a formidable experience as the tender glides over the water with seemingly no effort.

## ENGINE

The 90 horsepower engine of the Agilis 330 is a great fit, balancing performance and fuel efficiency, the 55-liter fuel tank will not leave you hanging, even while reaching up to 38 knots.

## AGILITY AND SAFETY

Much like the Agilis 305, this model also features a brake system. Hence, the Agilis 330 is capable of cutting down its braking distance by half, even when going at full speed.

# AGILIS 330

## ENHANCED MANEUVERABILITY

Enhanced maneuverability of the Agilis 330 enables you to guide the tender even through a narrow area. Needless to say, parking the boat as well as operating it within a marina is made noticeably easier and greatly enhances your experience with the tender.

## LIMITLESS PERSONALIZATION

When it comes to customizing your own jet tender, Agilis got you covered. Not only are we providing you with a vast range of high quality materials to choose from, ranging from faux leathers to textiles, you will be able to choose from over 32 million marvellous color combinations. # Agilis

JET TENDERS

## SIZE AND PASSENGERS

The 3.55m long Agilis 355 is truly a sight to behold. The tender is able to carry 6 passengers elegantly through the water.

## MODERNIZED AND EFFICIENT DESIGN

When designing the Agilis 355 we set out to combine a new modern, yet elegant look, with a design that does not make any sacrifices in terms of performance. The avant-garde style of the tender will be a great addition to any yacht, no matter whether it has a classic or modern look. In terms of performance, you can expect the tender to handle itself majestically as improved weight distribution does not only improve ease of use, but also makes you feel like you are truly gliding over the water with no effort.

## WATERSPORT MADE EASY

A ski pole can be found on the Agilis 355 that enables greatly improved and more comfortable towing. Furthermore, a ski mode feature provides enhanced control while towing by keeping the tender at a consistent speed, granting you refined ease of operation as well as significantly improved safety.

# AGILIS 355

## RELAXING OR SPORTY DEPENDING ON YOUR MOOD

The implementation of a trimmable jet pump nozzle allows you to seamlessly adjust the waterflow of the propulsion. Therefore, you are empowered to determine whether you desire a comfortable ride or whether you would like to engage in a more thrilling, sporty experience.

## SPACIOUSNESS AND FLEXIBILITY

The tender is equipped with an extended bathing platform, making sure that you can make use of the size of the tender. Additionally, a FOLDABLE backrest can grant even more space for activities such as sunbathing.

## CHOICE OF ENGINE

The Agilis 355 provides you with the choice between two engine types. The first being a 90 horsepower engine that is more than capable of getting the job done. However, if you want to take the Agilis 355 to the next level you are able to equip it with a 144 horsepower beast.

## A NEW AND INNOVATIVE OPTION

With a length of 3.60m, the Agilis 360 is capable of carrying 6 passengers without breaking a sweat. It is the newest addition to the Agilis family and much like any other Agilis product, it does not sacrifice any performance for its elegance.

## FLEXIBILITY IN NEW FORM

The Agilis 360 is the smallest diesel powered tender. Hence, you receive all of the comfort of a diesel engine, while retaining a compact form factor that even fits on less spacious yachts.

## DIESEL ENGINE FOR MORE VERSATILITY

The 110 hp diesel engine that is built into the Agilis 360 provides you more freedom and flexibility. Refilling the tender on board of your yacht enables you to use the Agilis 360 for extended periods of time without the necessity to carry additional petrol.

## STATE-OF-THE-ART JET PUMP

Being equipped with a professional heavy duty jet pump, the tender glides over the water even at high speeds with grace and speed. The pump is built to be exceptionally durable so you can enjoy your experiences with the Agilis 360 without worries.

## WATERSPORT WITH NO HASSLE

The Agilis 360 is equipped with a ski pole, providing you with very convenient towing capabilities, making it a pleasure to utilize the tender for watersport activities.

## COMFORT RELIABILITY

If you summed up all the features and advantages of the Agilis 560 in one word, that word would be comfort. Whether it's the one-lever-for-all single drive unit, the Bimini top doubling as a sunshade, the spray dodger ensuring dryness for all; no matter the conditions, the whisper-quiet; powerful engine, the ample space for passengers or the tons of storage – every trip on the Agilis 560 is sure to be in comfort and style. And a 55-liter freshwater tank for showers on the go or rinsing off sandy feet eliminates unwanted stopovers between fun in the sun and a relaxed visit to a favorite beachside restaurant. The experience you have on your luxury 10 persons tender should reflect the comfort you are accustomed to on your superyacht.

## ENGINE

The Agilis 560 with its Mercury Diesel 2.0L engine comes out swinging. Weighing in at just 250 kg, this engine is compact and light without sacrificing power and performance. What's more, the corrosion resistant design and low engine-room temperatures translate into a long-lasting engine life. This 170 horsepower engine that can reach up to 38 knots packs a real punch and has no issue taking you over long distances thanks to its 130-liter fuel tank and optimum fuel economy.

# AGILIS 560

MODELS

**Agilis**  
JET TENDERS

## DASHBOARD & SAFETY

The cockpit on the Agilis 560 is kept really sleek with a streamlined dashboard for seamless control of NMEA connected sources from a single multi-functional display. Superior marine equipment meets award-winning audio innovation in a compact form factor.

## CUSTOMIZATION

It all starts with a name. So, it seemed fitting that you should have the option to name your "tender to" its registered mother ship with the Agilis 560 T/T (embroidery available in any color you like). Literally from bow to stern, starboard to port, Bimini top to aluminum hull - with over 100 million color combinations and customization options, the world is your oyster when configuring the look and feel of your ship, that is tender to your ship. Of course, being fully customizable, we can design your tender to look identical to your yacht right down to the materials used, making the Agilis 560 truly a tender to behold.

As a family business, Agilis prides itself as being a young and dynamic company that has a personal connection to the product we produce. After gathering 10 years of experience in boat production, the founder Maxym Starchenko decided to create his own watercraft selling and repair company in 2008.

One day, while spending time on a yacht and using a jet tender and researching the market, Maxym found that not a single one met his requirements and needs. Not before long, in 2015, he started to assemble a team of specialists and started the development on the first model.

After developing the first prototype in 2017, the Agilis 355 was presented at a trade fair in Düsseldorf and became an instant success. Driven and inspired by the initial plaudits, Agilis set out to expand its product range in order to make their tenders available to a broader range of needs. Currently, 5 models have been put into production, with 1 more model being in development.

#### Key dates:

2015 – development started

2017 – the first prototype model came out

2018 – model 355 presented

2018 – model 305 presented

2019 – model 330 presented

2020 – model 280 presented

2021 – model 560 presented and 360 developed, which is available for pre-order

**To be continued...**

# ABOUT AGILIS

MODELS

**Agilis**  
JET TENDERS

STARCHENKO MAXYM, OWNER

*"I remember vividly, when my father took me to a marina for the first time. The elegance of the boats I saw back then has been an inspiration to me since that day and I try to capture that inspiration in every single one of our tenders."*

*"One often notices that a yacht reflects part of the owner's personality, so naturally the tender on your yacht should be able to serve the same purpose. That is why we put so much focus on enabling our customers to really make their Agilis jet tender their own by providing them with countless customization options."*
